

Harindra Masna

Senior Software Developer

Angular, React & Node JS Developer with ~8 years of experience

Contact Information

- **Phone:** +91 8686757570
- **Email:** harindramasna@outlook.com
- **GitHub:** github.com/harindra-dev
- **LinkedIn:** [linkedin.com/in/harindramasna](https://www.linkedin.com/in/harindramasna)
- **Website:** <https://harindra.in>
- **Address:** Plot No 409, Road No 3, Defence Colony, Hayathnagar, Rangareddy, Hyderabad, Telangana, 501505

Professional Summary

Results-oriented **Senior Angular/React and Node.js Developer** with ~8 years of experience delivering scalable, secure, and user-centric applications. Specialized in crafting high-performance Single Page Applications (SPAs) using Angular and React, with a strong focus on leveraging Generative AI for productivity enhancements. Skilled in API design, CI/CD pipeline optimization, and adhering to data privacy standards like GDPR and HIPAA. Extensive experience working on enterprise-level projects for leading US clients, delivering large-scale implementations with measurable impact. Certified SAFe 6 Scrum Master with a proven ability to lead teams, mentor developers, and execute complex projects with precision. Known for exceptional problem-solving, effective team leadership, and a strong commitment to delivering excellence.

Certifications

- Microsoft Azure Fundamentals (June 2024)
- Certified SAFe® 6 Scrum Master (April 2024)
- Serverless App Development: Applications with Google Cloud Functions (October 2023)

Career Highlights

- **Generative AI Expertise:** Utilized Generative AI to streamline development workflows, achieving up to 30% faster delivery cycles and producing high-quality code. Enhanced team productivity by implementing AI-driven solutions for debugging and optimization.
- **Enterprise-Level Experience:** Delivered scalable solutions for leading US clients in Insurance and E-commerce, managing large-scale implementations with high data security and compliance.
- **SPAs Development:** Expert in Angular and React, delivering seamless and scalable web applications tailored for enterprise and user-specific needs.
- **API and Data Security:** Designed and implemented secure APIs with RESTful and GraphQL, ensuring data protection and compliance with GDPR and HIPAA.
- **CI/CD Proficiency:** Monitored and enhanced CI/CD pipelines, ensuring efficient and reliable deployments across enterprise applications.
- **Leadership:** Mentored cross-functional teams, conducted code reviews, and facilitated knowledge-sharing sessions to elevate team performance.

Skills Summary

Top Technical Skills

- HTML5, CSS3 (Responsive Design, Flexbox, Grid), JavaScript (ES6+, Asynchronous Programming)
- React.js, Angular
- MongoDB, MySQL
- RESTful APIs, GraphQL
- Generative AI for productivity and code optimization
- CI / CD, Version control, Agile Methodology

Tools & Technologies

- Node.js, Express.js, Firebase
- Git, BitBucket, VS Code, Adobe XD, Figma
- Testing frameworks: Jest, Mocha, Cypress
- UI/UX Design Principles and Cross-Browser Compatibility

Specialized Technical Expertise

- Building scalable and responsive Single Page Applications (SPAs) using Angular and React
- API Development and Integration with RESTful and GraphQL systems
- Payment Gateway Implementation and secure transactional systems
- Leveraging Generative AI for enhanced productivity and optimized solutions
- Ensuring cross-browser compatibility and performance optimization
- Conducting rigorous testing with Jest, Cypress, and Mocha to ensure application robustness

Soft Skills

- Exceptional Problem-Solving and Analytical Thinking
- Strong Collaboration and Communication Skills
- Leadership and Mentorship

Work Experience

Senior Software Engineer [Full-time]

CGI ISMC Pvt. Ltd., Hyderabad, India *Aug 2022 - Present*

- **Domain:** Insurance
- Architected and implemented scalable, enterprise-grade applications for a leading US-based insurance client, enabling large-scale data processing and secure API integrations.
- Streamlined and automated repetitive processes, reducing operational overhead by 30%.
- Leveraged **Generative AI tools** to produce optimized, high-quality code, accelerating delivery and improving project efficiency.
- Conducted thorough code reviews, ensuring adherence to industry best practices and maintaining high software quality standards.
- Strengthened API security protocols, safeguarding data integrity and ensuring regulatory compliance.
- Mentored and guided a team of developers, fostering technical growth and enhancing overall team productivity.
- Integrated diverse **Node.js** and **JavaScript** libraries to bridge business requirements and technical gaps effectively.

Senior Software Developer [Full-time]

Sevya IT Private Limited, New Delhi, India *Apr 2021 - Jul 2022*

- **Domain:** Gaming
- Developed backend systems using Node.js and React Native applications, powering innovative gaming experiences.
- Engineered high-performance SPAs using Angular, ensuring seamless user interactions.
- Implemented real-time data protection measures, enhancing system reliability by 25%.
- Utilized Generative AI to accelerate feature rollouts and optimize performance.

Software Development Engineer [Full-time]

Text Mercato Solutions Private Limited, Bengaluru, India *Nov 2020 - Apr 2021*

- **Domain:** E-commerce (B2B)

- Designed and developed a robust MEAN stack application, streamlining operational workflows for B2B clients.
- Enhanced application speed and responsiveness by 25% through rigorous optimizations.
- Improved API endpoints to ensure high availability and secure communication.
- Automated repetitive tasks using Generative AI, reducing manual intervention.
- Developed RESTful APIs using Node.js and Express.js, implementing and optimizing database queries for efficient data handling.

Associate Web Developer [Contract]

Nusecond Technologies Pvt. Ltd., Bengaluru, India *Sep 2019 - Oct 2020*

- **Domain:** Healthcare
- Designed responsive and interactive web pages aligned with WCAG standards.
- Created SEO-optimized content in AEM, adhering to brand and accessibility guidelines.
- Implemented HIPAA-compliant data privacy measures, ensuring patient confidentiality.
- Designed and developed campaign materials and single-page campaign portals using Angular and React, while leveraging Node.js with Express for backend data storage and session management.

Offshore Freelance Developer [Freelance]

Nice Global Solutions, Texas, USA *Apr 2019 - Sep 2019*

- **Domain:** Music & Event Management
- Developed end-to-end products for a Music & Event Management application, including calendar management, venue booking, and payment gateway integration.
- Built and maintained admin dashboards and event management systems, enhancing usability and overall product performance.
- Achieved a 20% boost in efficiency by streamlining and optimizing operational workflows.
- Designed the frontend with Angular, and implemented scalable backend services using Node.js, Google Cloud Functions, and MongoDB.
- Delivered seamless API integrations with third-party services and prepared comprehensive project documentation to support ongoing development and maintenance.

Associate Designer [Full-time]

Tech Mahindra Ltd., Hyderabad, India *Dec 2017 - Apr 2019*

- **Domain:** Healthcare – Designed and optimized responsive web portals and email templates for multi-device compatibility.

- Implemented accessibility features to align with WCAG standards, improving inclusivity and usability.
- Reduced design turnaround times by 10% through streamlined processes and workflow improvements.
- Developed interactive web UI applications for marketing campaigns across multiple brands using Angular and React.
- Integrated backend services with Node.js and Express, implementing authentication, authorization, and session management for secure user experiences.

Academic Background

Bachelor of Technology in Electrical & Electronics Engineering from Vignan's Institute of Technology & Aeronautical Engineering, Jawaharlal Nehru Technological University, Hyderabad, Telangana. *Oct 2012 - May 2016*

- Graduated with an aggregate of 62%.
- Built a strong foundation in core engineering principles and problem-solving.
- Secured a placement as a **Graduate Engineer Trainee** during campus recruitment.

About Me

- **Interests:** Listening to music, watching movies, exploring new technologies. Passionate about working in fast-paced environments and staying at the forefront of technological advancements.
- **Languages:** English, Hindi, Telugu (native language)
